

Youssef Alaa Elden Abdel-Shafy

Senior Flutter Developer | Mobile Application Engineer

youssefalaacj@gmail.com | +201289770332 | [LinkedIn](#) | [GitHub](#) | Cairo, Egypt

SUMMARY

Flutter Developer with 4+ years delivering production-grade, cross-platform mobile applications across FinTech, MPOS/KDS, Fleet Tracking, EdTech, and E-commerce verticals. Deep expertise in Clean Architecture, BLoC/Cubit state management, Method Channels for native Kotlin integration, WebSockets, and CI/CD pipelines. Track record of owning full feature delivery cycles - from architecture design through App Store and Google Play deployment - in collaboration with Backend, QA and UI/UX teams.

WORK EXPERIENCE

Senior Flutter Developer – Qweelvo

Apr 2026 – Present

- Architected and led development of a Kitchen Display System (KDS) in an MPOS environment — digitalizing kitchen order management with real-time WebSocket-driven updates replacing printed tickets.
- Built Method Channels with Kotlin to implement a native receipt printing system, bridging Flutter UI with hardware-level Android functionality.
- Developed a Delivery Driver App featuring live GPS order tracking, shift management with face verification and biometric authentication, and real-time order acceptance.
- Collaborated with native Backend Engineers, QA, and UI/UX Designers in a structured cross-functional delivery pipeline.

Flutter Developer – Annotex (Part-Time)

Oct 2024 – Present

- Developed scalable Flutter applications following Clean Architecture and SOLID principles.
- Integrated REST APIs, third-party SDKs, and managed CI/CD pipelines for automated deployments.
- Collaborated with designers and backend engineers in an Agile/Scrum workflow.

Mid-Senior Flutter Developer – Swapop

Nov 2025 – May 2026

- Built core features for an AI-powered next-generation marketplace platform using Flutter.
- Implemented real-time chat, push notifications, and deep REST API integration for live trading flows.
- Delivered production features independently, coordinating with backend and product teams. [Google Play](#)

Code Instructor – iSchool (Part-Time)

Jan 2025 – Aug 2025

- Mentored students in Flutter mobile development covering architecture, state management, and deployment.

PROJECT EXPERIENCE

KDS & MPOS System

- Developed a real-time kitchen order management system using WebSockets and a native backend, replacing traditional paper-ticket workflows.
- Implemented a dynamic white-label branding system with runtime theme customization, enabling brand-specific colors, logos, typography, and UI styling without app redeployment.
- Integrated hardware receipt printing through Flutter Method Channels (Kotlin) and collaborated closely with QA and UI/UX teams to ensure seamless user experience and device compatibility.

DGO GPS Tracker [Google Play](#)

- Built a real-time fleet management solution with live GPS tracking, WebSocket-powered monitoring dashboards, geofencing alerts, route history, and Google Maps integration for enhanced fleet visibility and operational control.

Teacher Progress | [Google Play](#) / [App Store](#)

- teacher performance management platform for KPI tracking, evaluation analytics, evidence management, PDF report generation, and Firebase-powered cloud synchronization.

Toxel Pay – Finance Management App

- FinTech app covering expense tracking, subscription monitoring, bill payments, insurance, telecom services, and account balance in a single platform.
- Secure architecture with encrypted local storage, clean state management, and production deployment.

Kidzo – Kids Educational App [Google Play](#)

- Interactive educational app for children built with Flutter Flame and Flutter TTS — combining learning and gaming through colorful activities, alphabet/numbers/animals/flags, memory games, and math challenges.
- Role-based architecture with child-safe UI/UX, appropriate sound design, and offline-friendly gameplay.

Qutof – Fresh Produce E-commerce

- E-commerce app for ordering fresh fruits and vegetables built with Flutter & Firebase.
- Cart management, order queue with Cloud Functions, stock management, delivery tracking, push notifications, role-based admin app.

27Services – Service & Grocery Platform | [Google Play](#) / [App Store](#)

- Service-request and grocery ordering app: cart, Google/Firebase auth, Firestore, Google Maps, multilingual UI, and admin dashboard.

Hola Academy

- Swimming club app with trainee QR check-ins, scheduling, and Push Notifications.
- Roles: Trainee, Coach, Admin - with respective features like rating, tracking, and analytics.

PureFit – Fitness App [Google Play](#)

- Gemini AI-powered personalized coaching with step tracking, pedometer integration, Sqflite offline support, and workout customization.

Saqr App – Accident Reporting

- Car accident reporting with real-time GPS tracking, video recording via camera plugin, Agora SDK video meetings, and Supabase real-time backend and Storage.

TECHNICAL SKILLS

Mobile: Flutter · Dart · Method Channels · Platform Channels · Flutter Flame. Deep Linking · Push Notifications · In-App Purchases · Payment Gateway Integration

Architecture: Clean Architecture · SOLID · MVVM · BLoC / Cubit · Provider · Dependency Injection

Backend & APIs: REST APIs · WebSockets · Firebase · Supabase · SQL · Firestore · Cloud Functions · Firebase Analytics · Firebase Crashlytics

Mapping & Hardware: Google Maps · MapBox · GPS Tracking · Agora SDK · Native Receipt Printing

DevOps & QA: CI/CD · Git & GitHub · Unit Testing · Widget Testing · Integration Testing · App Store / Google Play Deployment

Methodology: Agile / Scrum · Code Reviews · Mentoring · Cross-functional Collaboration

Languages: Arabic (Native) · English (Professional)

EDUCATION

Bachelor Computer & Information – Suez Canal University

2019 – 2023

- Cumulative Grade: Very Good | Graduation Project: Excellent

Intensive Code Camp – ITI (Frontend & Cross-Platform Mobile)

May 2024 – Sep 2024

- Studied modern software development practices.
- Gained practical experience in Agile and Scrum methodologies.
- Integrated REST APIs and Firebase backend solutions.

Mobile App Developer – Digital Egypt Pioneers Initiative (DEPI)

Apr 2024 – Oct 2024
